SCIENCE EDUCATION

The Graduate School of Education at the University of Massachusetts Lowell is seeking applications for a tenure track position in Science Education commencing January 2003 or September 2003. The position is at the rank of Assistant or Associate Professor, with consideration given to an appointment at the Professor level; salary commensurate with experience.

The Graduate School of Education offers initial and advanced Master of Education degrees as well as a Doctorate in Mathematics and Science Education. The successful candidate will be expected to teach in and contribute to the ongoing development of each of these programs. Additionally, an active research agenda, willingness to seek outside funding, and ability to work in K-12 outreach programs are expected. Preference will be given to candidates with a strong background in the teaching of the physical sciences.

Qualifications

- Earned doctorate in science education.
- Masters degree (or extensive coursework) in a field of physical science.
- Three years of middle or high school classroom teaching experience.
- Experience in teaching graduate level courses that prepare science or mathematics teachers for initial certification at the secondary level.
- Record of research in science or mathematics education.
- Experience with PK-12 science teacher professional development programs.

Application Materials

Inquiries should be directed to Anita Greenwood (Search Committee Chair). Applicants should send a detailed letter of application, full vita, copies of two recent publications, names of three individuals who are able to provide a recommendation. The initial review of applications will begin on November 1, 2002 and continue until a suitable candidate is appointed.

LEADERSHIP IN SCHOOLING

Qualifications: Minimum qualifications include an earned doctorate in educational leadership or a related field. Teaching and advising experience with graduate students and a record of scholarship, as exhibited in publications and grants are required. Expertise in two or more of the following areas is desired: school leadership, cultural diversity, curriculum and instruction, online teaching and curriculum development, program evaluation, and educational policy. Prior experience with preK-12 as a school principal or superintendent of schools is desirable. Expertise in applications of new technologies and an understanding of diverse student backgrounds are especially important. Rank, salary, and tenure-track appointment are commensurate with qualifications and experience.

Responsibilities: Teach and advise masters, c.a.g.s. and doctoral students. Direct doctoral research. Write and direct major grants. Conduct and publish school-based research. Participate in interdisciplinary teaching. Provide service to the university, regional, and professional communities.

Screening of applications will begin December 1, 2002 and continue until the position is filled. Appointment is subject to funding.

Applicants should send a letter of interest, vitae, and the names of three references to:
